**Publishing
with impact – top tips
from a journal editor**

**Thursday, 9th May
12.00 p.m.**

CIC biomaGUNE - Seminar Room

When you've done interesting and valuable research you want to share it with the world! This session will give an overview of scientific publishing, covering all the information you need to know about how to publish your research. As well as providing an introduction to the Royal Society of Chemistry we will cover: how to write your paper, navigating the peer-review process, publishing ethics and open access – along with our editors' top tips.
