

SCIENTIFIC WORKSHOPS/CONFERENCES/EVENTS

X-Ray photoelectron spectroscopy Course 02/02/2010

X-Ray photoelectron spectroscopy took place in CIC biomaGUNE. Professor Antonella Rossi (ETH Zurich, Switzerland, and University of Cagliari, Italy) gave a four day course on surface analysis by X-ray photoelectron spectroscopy in CIC biomaGUNE

FEBS International Workshops 19-24/07/2010

Physical Chemistry of Biointerfaces workshop took place at CIC biomaGUNE until July 24. The goal of this five-day series of lectures and hands-on sessions was to provide the attendants with a thorough overview of basic concepts from physics, chemistry, and biology that form the foundations of the interdisciplinary field of biointerfaces and to illustrate how these concepts are applied in everyday research.

Workshop of the European Project NANOANTENNAS 04/10/2010

The workshop devoted to the annual meeting of the European Project NANOANTENNAS took place on the 4th of October 2010. The main topics of the meeting was the immobilization of biomolecules of the surface of gold and development of DNA aptamers. Two local and four invites speakers gave presentation about their experience in that field of study. The meeting was sponsored by the European Comission.
