Open Day in the Radiochemistry and Nuclear Imaging Group 26/09/2014

September 26th 2014, Eunice Sofia Da Silva and Sameer Manohar Joshi, PhD students of the group, gave a seminar entitled: BASIC INTRODUCTION TO RADIOCHEMISTRY AND PET.

The lecture took place at 10.00 a.m. in the seminar group of CIC biomaGUNE, and was followed by a visit to the molecular imaging facility. This activity aims to target graduate students in life sciences within the basque academic community, and the main goal was to explain the utility of radiochemistry and nuclear imaging in the context of life sciences.

8th Anniversary Conference 14/11/2014

Prof. Avelino Corma delivered the magistral seminar entitled “Del laboratorio a la aplicación industrial”. He was supported by the director-general of CIC biomaGUNE and CIC bioGUNE José Maria Mato, the scientific director of the center Luis Liz Marzán, and the former director Manuel Martín Lomas.
